LESSON OVERVIEW

What should students know/do by the end of this week's lessons?

Students will consolidate and demonstrate their understanding of the taught technologies, material properties, design contexts and sustainability topics. Independent assessment will identify strengths and priorities for further learning.

End-of-Week Assessment/Check: How will you know they got it?

Mark work against the assessment criteria. Record misconceptions and plan targeted follow-up.

LESSON SLOTS - TUESDAY & WEDNESDAY

Lesson	Date	Learning Objective	The Lesson Flow	Differentiation
1	01 December 2026	By the end of this lesson, students will be able to demonstrate understanding of the taught technologies, material properties, design contexts and sustainability topics.	**H:** Explain the task instructions, permitted materials and expectations. **ID:** Clarify the question format and success criteria without revealing answers. **WD:** Use this stage for independent assessment responses. **YD:** Complete the assessment independently under agreed school conditions. **C:** Collect work and record priorities for follow-up. Give feedback when marking is complete.	**Support:** Apply agreed access arrangements. Clarify instructions without supplying answers during independent assessment. **Extension:** Check explanations and justify decisions with relevant properties, evidence and trade-offs.
2	02 December 2026	By the end of this lesson, students will be able to demonstrate understanding of the taught technologies, material properties,	**H:** Explain the task instructions, permitted materials and expectations. **ID:** Clarify the question	**Support:** Apply agreed access arrangements. MATERIALS NEEDED FOR THE WEEK

- Teacher-prepared assessment papers and marking criteria
- Student writing materials and approved assessment equipment

END-OF-WEEK REFLECTION

- What worked well?

- What flopped or confused students?

- What needs to be re-taught or adjusted next week?
